

## Winter Progress

Spring is not even here and yet Sunrise Haven is bright and blossoming. A tree during winter may look inactive, yet we learn that there is great activity within the tree, not only preparing it for its spring budding, but also in its protection for creatures cuddling amongst its roots and protective spaces. Sunrise Haven has been very active this winter in caring for a flow of patients finding loving care and spiritual uplift.

Within the tree, the winter activity results in a new growth ring in addition to the buds and fruit that emerge. We call that progress. Similarly, Sunrise Haven undergoes growth and progress through continuous change. Mary Baker Eddy writes in *Science and Health* page 233 "...progress is the law of God, whose law demands of us only what we can certainly fulfil." This demand for progress is demonstration of health and the ever-growing understanding of the source of the loving care that is Christian Science nursing, reflecting Truth and Love. It comes to patients, Christian Science nurses, staff, volunteers and all associated with Sunrise Haven through desire to know good, God. It is seen in collaboration, unity of direction to care for humanity and in the Science that impels progress. The loving care and spiritual uplift come through our Christian Science nurses whose smiles and dedication blossom from their strength in Love.

Sunrise Haven has open doors around the seasons for those who are seeking the kind of care that is only available through Christian Science nursing as provided in accord with the *Manual* of the Mother Church. **Let progress rule.**

George Gregory  
*Sunrise Haven Trustee President*

Director, please turn over.*

### ***From our Executive Director***

As George mentioned, we are constantly building and improving as an organization, nourishing the roots of who we are and what we do for one another as sincere Christian Scientists. At Sunrise Haven, this is evident in our growing training program. In late February, we welcome back a student moving forward with their level 3 classroom curriculum and anticipate sending a student to camp, with a mentor, this summer.

We are closer to scheduling contractors for our main kitchen project and eagerly await the day when we can invite the community to tour our new space.

Your contributions during our November and December Matching Opportunity were bountiful and we look forward to utilizing that love from community in projects that nurture and support our Christian Science nurses and staff.

Most importantly, **our doors remain readily open** for you either for Rest and Study, Christian Science nursing care, or as a volunteer. Our operations are uninterrupted by capital improvements, our quality of care is consistent, and our way forward is strong. We are doing well and are here for you as nearby comfort, however you need us.

Lovingly,  
Emma Flavin

---

### ***To all current and prospective volunteers:***

As the weather warms, we would love your help with planning and planting spring flowers for our outdoor pots. If you have a knack for gardening and this interests you, please reach out to Mary Collins, our Business Manager, for details.

## Sunrise Haven Financial Report Feb 2023

As I came into the Treasurer position last year, I began searching for the meaning behind the numbers. One of the meaningful metrics that has stood out to me is this: In every year of the last three that I've been a Trustee, more than half of our income has been directly from Christian Science nursing activities.

**Sunrise Haven's faithful commitment to our mission is worthy of hire.** Generous donations and grants from individuals, churches, and other organizations have supplied the rest, and this combination enables us to charge a reasonable amount for our Christian Science nursing services without sacrificing the well-being of our staff or the quality of our care. Funds from the National Fund for Christian Science Nursing or Sunrise Haven's own benevolence account are able to support everyone in affording the care they need while relying on Christian Science for healing.

Sunrise Haven is demonstrating its foundation on the rock of Christ in infinite spiritual supply. Although 2022 was a rough and tumble year for Wall Street, our supplies were abundant enough to provide the usual 3% Cost of Living Adjustments to every employee, plus a one-time cash COLA bonus. The extra COLA was based on the number of hours worked by each employee to make it equitable and impactful, and was funded by the cumulative earnings of our investments over the last three years. We were moved to do this as we observed inflation and housing prices rising so unusually in 2021 and 2022, and we were able to share this supply without touching the original amounts invested. This move supports the top priority of our Strategic Plan, "Valuing our Christian Science nurses and staff" and continues to be funded by a special donation given in 2020. We are certainly rejoicing in the affluence of our God!

We are so deeply grateful to offer this haven in the service of Christ's healing purpose. We enter this new year with hearts committed to our mission: Christian Science nursing inspiring, loving, and healing humanity.

Rachel Schutz  
Board of Trustees, Treasurer

**Statement of Activities**  
(in Millions)
